

William C. Clements Library circa 1930 version of Gaspard Joseph Chaussegros de Lery, fils',
1749 map of the Detroit area¹

¹ Circa 1930, the William L. Clements Library wanted to clarify the notations and names of the Detroit River settlers on a 1749 map drawn by Chaussegros de Léry. Therefore, they commissioned C.E. Hickman to draw a modern version of the map. The original Chaussegros de Léry map appears as Figure 3.8 on page 44; the modern version as Figure 3.9 on page 45 of Brian Leigh Dunnigan, *Frontier Metropolis Picturing Early Detroit, 1701-1838* (Detroit: Wayne State University Press, 2001). Permission to place this map on the FCHSM website has been granted by the Library.
